|--------------------------------------|--|---|--|--|---|

## Preparing for your MRI exam

**Preparing for your MRI exam is easy.** Follow your normal daily routine and continue any prescribed medication unless your doctor or our office has instructed you otherwise.

**Please arrive 15 minutes early for your scheduled appointment, and bring all Medicare, insurance, or health plan documents, subscriber numbers, etc.**

## Metal and your MRI exam

Please do not wear any metal such as jewelry or hairpins during your MRI exam. Metal worn in the magnet area will disturb the radio signals that allow the computer to create images of your body. Some heavy eye shadows and hair sprays will also interfere with the quality of your scan.

**Please dress comfortably.**

Please do not wear any clothing with metal or zippers.

Be sure to tell the technologist if any of the following applies to you:

- Have a pacemaker
- Metal fragments are in your body (surgical staples, cochlear implants, dental bridges, metal aneurysm clips, shrapnel, hearing aids, or other metal implants)
- Think you may be pregnant

### Prattville

Sonos Imaging is located  
in front of Home Depot  
at 2715 Legends Parkway, Prattville AL

### Birmingham

Sonos Imaging is located  
next door to Lemak Health  
at 5018 Cahaba River Rd, Birmingham, AL
